Within a short survey, we cannot mention the names of all Hungarian emigre groups. We must be satisfied with mentioning the Communist emigres in Moscow and Count Karelyi's opposition circle in London. (indistinct passage) All these groups were rendering extremely valuable services to the Hungarian cause while working independently and it is inconceivable that any one of them should remain outside the constructive work of building the new Democratic Hungary. We are the more justified in stating this because the London, Moscow, Washington and Berne groups represent separate sections of the internal opposition. It was regrettable that no concrete cooperation materialised although, by now, it can be stated that complete harmony on all fundamental questions exists. A good example of this is the recent proclamation by Count Mihaly Karolvi, which created an extremely good impression and, in the opinion of various persons corresponding with us, includes the programme of vall Free Mungarian movements.

We think that, in the interests of planned practical cooperation, we must above all eliminate incidents which might produce misunderstandings. For instance, it is scarcely conceivable that, without previous discussion of business and programme, individual groups should simply join together, and abandon their independent character and political complexion. In my opinion it is unnecessary to do this, for even in circumstances of emigration (? shades of opinion) must not be neglected since these are always present in the life of a politically-developed State and we shall certainly find them in the political reconstruction of Hungary. We should, rather, try to create a common programme in which representatives of all important groups should participate. Representatives of the chief emigrant groups would form a committee which, after preparatory work, could eventually lay the foundations for permanent common leadership, we do not know who would undertake to start discussions, but we feel the initiative should properly came from Count Karolyi's council in Lordon, recent proclamation afforded good prospects of a common programme. The time is ripe for creating this cooperation; Hungarian events prompt us to immediate action.

1) The marks of this line of political thinking can be found to this day in German socialist publications. Here is a sample from "The Next Germany", a Pinguin Special, published as a discussion platform by an anonymous group: "At that moment (when the first cracks begin to appear in the Hitler system) one of the greatest dangers may well be that of premature open actions. Such actions, however heroic, would be mercilessly crushed in blood and might me result in the physical destruction of the elite. However, the revolutionary training which the underground groups have received in the more than ten years of secret opposition provides some guarantee against premature revolts. " It did. Politically, of course, left-wing forces in Germany were counted out as a motive force and the whole of the German people stood indicted for amandan standing by Hitler, when the forst cracks appeared with the generals' revolt, amidst the complete and significant silence of the masses.

Kungarian soldiers!

The victorious Red Army has reached the Carpathians. All along you have been deceived by Horthy and his crowd.

Not the Red Army is your enemy, but Mitler's Brown Army.

Think and act, as long as there is time.

Turn your weapons against your German and Hungarian oppressors.

Surrender and go over in masses to the Red Army which will liberate Hungary from the landlords who for centuries kept you working for themselves like slaves, under inhuman conditions, and who chose to sell out the country to Hitler sooner than to give you the land which by right is yours.

Force your officers to follow your lead, disarm them, if necessary. Each further day of the war threatens the innocent lives of your beloved ones at home. Northy will have to answer for them, he sold you out to the Germans and forced you into this shameful war. But once you must face dangers and risk your lives, then, rather than to die for those who are and always will remain your mortal enemies, give your blood for your own just causer join hands with the Red Army.

Seize the land in your home villages, as conquerors of the same land on which you have toiled for the lords for a thousand years.

A gyözelmes Vörös Hadsereg elerte a Karpatokat.

Hazugsag volt mindaz amivel Horthyek benneteket altattak.

Nem a Vörös Hadsereg az ellensegetek, hanem a Hitlerek Barna Hadserege.

Eszmeljetek es tegyetek meg a kötelessegteket.

Porditsatok fegyvereiteket a nemet es a magyar elnyomoitek ellen.

Adjatok meg magatokat a Vörös Hadseregnek, menjetek at tömegesen öhozzajuk, akik Magyarorszagot fel fogjak szabaditani a földesurak uralma

O adott el benneteket a nemeteknek, ö hajtott bele ebbe a szegyenletes haboruba. Ha mar szembe kell neznetek a haboru bornelmaival, ne ontsatok a vereteket azokert akik a halalos ellensegeitek. Alljatok ki inkabb a magatok igazsagos ügye melle: fogjatok kezet a Vörös Hadsereggel. Foglaljatok el a földet a falutokban, amin ezer eve dolgoztatok az uraknak.

tervek szolgálatába állitotta vészes helyzetbe sodorta az egész magyarságot. Horthy-Bárdossy, majd később Horthy-Kállay kormánya teljes egészében kiszolgáltatta és a németek rendelkezésére bocsátotta az ország erőforrásait és készleteit.

Magyarország uralkodó és német barát körei az igért zsákmány reményében vakon bizva, feláldozták az ország és a nép érdekeit. Belesodorták az országot egy diestelen háboruba a szabodságukébet és függetlenségükért küzdő népek ellen.

Ha a magyar néppiztositani akorja boldogulását és jövőjjét,akkor szembe kell fordulnia snémetekkel és az azokat támogató Horthy kormánnyal. A magyar nép ki tud ás ki kell,hogy
kerüljön ebből az egyaránt katasztrofális és szégyenteljes
helyzetből,meg kell találnia az utat a szabadságukért és függetlenségikért hercoló demokratikus népek tábporába.

erők haladétalan összefogására, xxxxxxxxxxxx, bátor kiállásra, cselekvésre van szükség ma. A háborunak véget kell vetnie, azonnali intézkedésekre van szükség a magyar csapatok hazaszállitá sára. Magyarországnak nem szabad elmerülnie a németekkel együtt a magyar érdek megköveteli, hogy a németektől megszabaduljon az ország és a Szövetségesek támogatásával fol vegye a küzedelmet és végleg leszámoljon az ország és a nép leggonoszabb allengágával a Marthy vandszarral

ellenségével a Horthy rendszerrel..

Rzért minden igaz, há fia a magyar hazának etthon és
külföldőn kell, hogy résztvegyen és támogassa, azt a harcot,
amelyet a demokratikus erők folytatnak ezeknek megvalositásáért;

Excerpts from the Minutes. Ership meeting. Held 2nd April, 1944 3.30 Mpm.

vai: Outlining developmentsin Hungary.

Ivanyi: Reports on the steps taken by the Executive and on its cutacts with the Lo.M. K.

Wikes: Argues for the acceptance of his moilion put ten days namen ago before the Executive. Though hismotion was not put on the Agenda of this meeting, he yet wishes to give his reasons for that motion

The membership of the N.Sz. M. E. calls upon the Execuitve to welcome Count Michael Karolyi's proclamation of 15th March publicly and totake steps to ensure the creation of a united organ of Hungarians in England, on the basis of the t proclamation, nonember with the N.D.H.M. and the L.M. K.'

The acce tance of such a motion would, of course , imply the recogni tion of Karclyi's leadership, in one form or another. That is as it should be. A move to the left is justified, for in view of the development of events , we carnot expect any other forces than those of the b ft to organise resistance, and upon these forces the mere name of Karolyi exercises a great effect, while the names of the otherwise highly meritorious members of our Executive can be hardly credited with making as much as a single man at home reach after his southe or gun. It is imposs ble not to notice the prestige enjoyed by Karolyi with Czechoaslovakain and Russian circles, and it might be hoped that precisely on this account his prestige will soon grow/with the F.C. At oneoccasionhis name had been mentioned on the [150] radio(by the BRC), and this was alone sufficient to make the speaker of the Social Democratic Party delears that that Party had always taken its stand on the plat form of the October Revolution. A fine obituarynotice was accorded by them to Laszlo Benyes and they had started publishing the memetrs of Johan Rock . The third reason for joining up with Karolyi emerted out of a comparision of the procalmations issued by the M.Sz.M. E and by the Karolyi movement , resepttively.

The two documents have much in common . They equally proclaim the necessity of an understanding with the neighbouring countries, refise to accept the Vierna awards , demand the punishment of war criminals, assert the need for social progress and for cooperation with the Allies. These points are important and agreement on them is most encouraging in reagrd to the prospects of an undestaning. However, the divergences are decisive: Karolyi declared already on 13th March that active resistance against those who support the war effort (InHungary) is necessary; that emphasis is to be laid on the undergorund movment; that war the main industring ries have to be started ed P; and that it is necessary to join up with Tito. Karolyi has, in themain, been borne out by events, all along the line. The legal opposition has ceæd to exist , and if the opposition attempts to continue its activities, it is compelled to become an illegal movment and to work in the frame of the National Indep endence Frant. Stabctage, open resistance, non-maintenance of order and alb the rest are not contentious anymore; every body agrees now with him. Well, it is a law of politics that he who has been supported by the course of events as much as he has been, must benefit from the consequere es.

Dr. Katona: He disapproves of the mental reservations which is impried in the declaration of the Exectuive. Why declare that for the sake of the fatherland we must join hand even with the Devil? All we have do is to support the person of the great democratic leader who for many long years represented ed alone the cause of Hungarian democracy, and whose international prestige is enormous.

522 THE TENNE

Dr. Kethelyi: He does not wish to discuss at this occasion Karolyi's historical rôle, but there is nobody who could deny that he was the leader of the only democratic experiment under taken by Hungarians.

Dr. Sandor Events have borne out Karoly: in every respect, his judgement has been proven right ...

Dr. Geret There is no need for aformal vote, for the Exective is already in the position to gauge the sense of the meeting.

The moition was split in two parts

- 1. The members of the N.Sz. M. E. call upon the Exectuive that it should recome the proclamation is stued by Count Karolyi on 13th March. 1944.
- 2. The metion was unanimounly approved.
 2. The mem ters of the N.S.. M. H. call upon the Exectuive to form a united organ of Hungarains in Great Britain, jointly with the N.D.H. M. and the L.Kondoni Magyar Klub.

 The motion was unanimously approved.
- 3. The membership meting passed unanimously the resolution submitted by Dr. Revai to the effect that the Egyesilet should meet in an extraodinary General Assembly in three weeks time.

1944 julius 26. EWISH WORLD GONGRESS

A Hitler főhadiszállásán főlrobbant bomba a német összeomlás kezdetét jelenti. Az összeomlás már nem késhet sokáig és a romok Magyarországot is maguk alá fogják temetni, hacsak a magyar hadsereg nem ébred felelőssége tudatára az utolsó őrák legutolsó perceiben.

A STATE OF THE PARTY OF THE PAR

A német tábornokok, akik a legmegbizhatóbb értesülések birtokában voltak és akik a legjobban tudták, mi a harctéri hirek igazi jalentősége, csak egy kiutat láttak, hogy megmentsék ami még menthető: eltenni láb alol Hitler és cinkosait. Himmler terrorja, a kivégző sortűzek ropogása, Göring beismerése egy ellenkormány létezéséről és a német propaganda kétségbeesett erőfeszitései milágosam bizonyitják, hogy a nács párt egy széles körökre kirtelyedt, messzeágazó összeeskűvéssel állott szemben.

Magyar tisztek és magyar honvédek! Már a német hadsereg is fellázadt a nép igazi ellenségei ellen. Utött a cselekvés érájax és bátor kiállás órája a számotokra is. A német elnyomó meggyengült. A magyarságra nehezedögyilkos ököl nyomása csökkent. A Szövetségesek elől menekűő német hadsereg katonái szabad perceikben ma azzal vannak elfoglalva, hogy egymást figyeljék.

Magyar tisztek, magyar honvédek! Lázadjatok fel a német ellenség és Horthy német parancsra és német máraért hajbókoló magyar kakájai ellen. Ne türjétek, hogy az oroszok elől menekülőnémetek magyar földőn összeharácsolhassák, amit még ottfelejtettek. Fegyverezzétek le a Magyarországot megszállva tartó nácikat. Forduljatok azok ellen a gyáva és gerinctelen magyar politikusok, tábornokok és tisztek ellen, akiknek drágább rongy életűk és akiknek fontosabb a németektől kapott zsold, mint a magyarság jövge. Ezektől az óráktól és a ti bátor kiállásotoktól függ, hogy milyen sors vár Magyarországra. A magyar katona sem lehet gyávább, mint a német.

Magyar tisztek, katonák! Rázzátok le a német bilincset. Ellenetek; egy kétségbeesett, bomladozó, idegen hadsereg; mellettetek: a magyar városok és falvak népe.

Membership meeting. Held 2nd April, 1944 3.30 Mpm.

Revai: Outlining developmentsin Hungary.

Ivanyi: Reports on the steps taken by the Executive and on its catacts with the Lo.M. K.

Mikes: Argues for the acceptance of his meitien put ten days before ago before the Executive. Though hismotion was not put on the Agenda this meeting, he yet wishes to give his reasons for that motion which ran:

The membership of the N.Sz. M. E. calls upon the Execuity to welcome Count Michael Karolyi's proclamation of 13th March publicly and totake steps to ensure the creation of a united organ of Hungarians in England, on the basis of that proclamate angumentum with the N.D.H.M. and the L.M. K.'

The acce tame of such a motion would, of couse , imply the recogn: tion of Karolyi's leadership, in one form or another. That is : it should be. A move to the left is justified, for in view of the development of events, we cannot expect any other forces the those of the b ft to organise resistance, and upon these forces the mere name of Karolyi exercises a great effect, while the name of the otherwise highly meritorious members of our Executive can be hardly credited with making as much as a single man at home reach after his scythe or gun. It is impossible not to not: the prestige enjoyed by Karolyi with Czechoaslovakain and Russian circles, and it might be hoped that precisely on this account his prestige will soon grow/with the F.O. At oneoccasionhis no had been mentioned on the also radio(by the BBC) am this was alone sufficient to make the speaker of the Social Democratic Par delcare that that Party had always taken its stand on the play form of the October Revolution. A fine obituarynotice was accorded by them to Laszlo Penyes and they had started publish: the memoars of Johan Hock . The third reason for joining up with Karolyi emerged out of a comparision of the procalmations issued by the N.Sz.M. E and by the Karolyi movement , resepctively.

The two documents have much in common . They equally proclaim the necessity of an understanding with the neighbouring countri refuse to accept the Vienna awards , demand the punishment of war criminals, assert the need for social progress and for cooperati with the Allies. These points are important and agreement on them is most encouraging in reagrd to the prespects of an undesrtani However, the divergences are decisive: Karolyi declared already on 13th March that active resistance against those who support the war effort (InHungary) is necessary; that emphasis is to be larger the undergorund movment; that war the main industry on the undergorund movment; that war ries have to be sabotaged; that a partisan movement has to be st edP; and that it is necessary to join up with Tito. Karolyi in themain, been borne out by events, all along the line. The legal opposition has ceased to exist, and if the opposition attempts to continue its activities, it is compelled to r an illegal movment and to work in the frame of the Natiendence Front. Stabotage, open resistance, non-mainter and all the rest are not contentious anymore; every now with him. Wgll, it is a law of politics that he benefit from the course of events as much as he had by Jainseyan you meetit trom the constaner es. Buitsem qidaredmou MM From the minutes of the

Dr. Katona: He disapproves of the mental reservations which is implied in the declaration of the Exectuive. Why declare that for the sake of the fatherland we must join hands even with the Devil? All we need do is to support the p son of the great democratic leader who for many long years represent ed alone the cause of Hungarian democracy, and whose intern tional prestige is enormous.

Dr. Hethelyi: He does not wish to discuss at this occasion Karolyi's historical role, but there is nobody who could deny that he was the leader of the only democratic experiment under taken by Hungarians..

Dr. Sandor Events have borne out Karolyi in every respect.his judgeme has been proven right.

Dr. Geret There is no need for afoural vote for the Exective is already in the position to gauge the sense of the meeting

The moition was split in two parts

in this fight was to counter the social reforms, not to protect the Magyar language. At any rate, up to 1844, the official language of the Administration and of Parliament was not Magyar, but Latin. Thes misleading manoever succeeded. Devertheless, the memory of the progressive ideas of Joseph II lived on, even though in an unconscious form, in the great masses.

As I said, when the tide was high for the Hababurgs, they went out for absolutism. When it was low, for federation. On the other side the Magyars, even the revolutionary Magyars, like Kossuth himself, fell into the deplorable mistake of wanting to fight for Magyar liberty only, an attitude, which resulted in Maving the Slavs fighting against them on the side of Hababurg reaction. Stur's offer of making a united front with the Magyars was most unwisely rejected by Kossuth. In this lay the main reason of the defeat of the Hungarian revolution of 1848. The divide et impera worked well.

Hungarians in London endorse Count Karlyi's Feace Call

Count Michael Karolyi's Call to the Mungarian people, of 13th March, to form partisan units centered on the Magyar Mational Independence Front, and to fight jointly with Tito's Army, where possible, has been endorsed by a large part of Hungarians living in this country. The occasion was a commemoration meeting of the Hungarian revolution, of 1848, led by Louis Kossuth. The meeting was held by the London Magyar Club at their Fembridge Square hall yesterday. Count Karolyi's proclamation had an enthusiastic reception on the part of a crowded meeting.

A Hungarian Army has joined the Russians and is marching on Budapest. This act will do much to restore the moral position of a people dishonoured by Horthy salliance with Hitler. But this is not enough. Hingary will have to mobilize all Pts strength on the side of the Allies and join in their struggle for the liberation of Vienna and the final conquest of Berlin (Hungary) must declare war on Germany / Only in this manner can she dissociate herself effectively from the Nazi criminals whose fate she would otherwise have to share. That A Hungarian people's government, established as soon as possible can achieve these aims. The reported stoppage of transportation, the strikesin the capital, the widespread disaffection of the common people show where the strength of the resistance lies. Feudal Hungary hasled the country into the catastrops And this feudal régime must now kinally disappear, if Hungary shall be able to extricate herself from her disastrous situation. The past 25 years' criminal politics of the counter-revolution made Hungary into a tool of German conquest and brought her to the Finally brink of the abyss. Desembly the Horthy Pardossy severement, and attending the Horthy-Kallay government; handed over to the Germans the country's resources as a whole and, blindly putting their trust in the promised booty, forced the Hungarian people to engage in an ignominious war against the peoples who fight for their liberty.

It is the vital interest of the Hungarian people to free themselves from this shameful as well as catastrophic situation, to find their way into the camp of the progressive and democratic peoples fighting for their independence. This is why it must stand up to the Germans as well as to the Horthy regime who support them. For he who common would fight the Germans, while of the same time would apare the Horthy regime, is a traitor both to democracy and to the Magyar cause. Daring, uncompromising actions, a bold proclaiming of our faith, and momentum maniman is bug together not one chione an active gallary of the forces of democracy are unadended now called for if our people is to survive. The war must be brought to an end, our troops withdrawn from the soil of the Boviet-Union, every and any warlike act against truops of the A. ies stopped if the Hungarian people shall not go down along with the Germans, popenly defytes them and the northy regime, and taking up the fight on the side of the Allies, find a place in the comity of peoples of a new, democratic Europe. Let therefore all Magyar democrats at nome and abroad band together, committed to the program of action: 1.
