## ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays, the sender of a message should order it repeated, that is, telegraphed back to the originating office for comparison. For this, one-half the un-repeated message rate is charged in addition. Unless otherwise indicated on its face, this is an un-repeated message and paid for as such, in consideration whereof it is agreed between the sender of the message and this Company as follows:

1. The Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the un-repeated-message rate beyond the sum of five hundred dollars; nor for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the repeated-message rate beyond the sum of five thousand dollars, unless specially valued; nor in any case for delays arising from unavoidable interruption in the working of its lines.

2. In no event shall the Company be liable for damages for mistakes or delays in the transmission or delivery, or for the non-delivery, of any message, whether caused by the negligence of servants or otherwise, beyond the actual loss, not exceeding in any event the sum of five thousand dollars, at which amount the sender of each message represents that the message is valued, unless a greater value is stated in writing by the sender thereof at the time the message is tendered for transmission, and unless the repeated-message rate is paid or agreed to be paid, plus an additional charge equal to one-tenth of one per cent of the amount by which such valuation shall exceed five thousand dollars.

3. The Company is hereby made the agent of the sender, without liability, to forward this message over the lines of any other company when necessary to reach its destination.

4. Except as otherwise indicated in connection with the listing of individual places in the filed tariffs of the Company, the amount paid for the transmission of a domestic telegram or an incoming cable or radio message covers its delivery within the following limits: In cities or towns of 5,000 or more inhabitants where the Company has an office which, as shown by the filed tariffs of the Company, is not operated through the agency of a railroad company, within two miles of any open main or branch office of the Company; in cities or towns of 5,000 or more inhabitants where the filed tariffs of the Company, the telegraph service is performed through the agency of a railroad company, within one mile of the telegraph office; in cities or towns of less than 5,000 inhabitants where an office of the Company is located, within one-half mile of the telegraph office. Beyond the limits above specified the Company does not undertake to make delivery, but will endeavor to make charge for delivery as the agent of the sender, with the understanding that the sender authorizes the collection of any additional charge from the addressee and agrees to pay such additional charge if it is collected from the addressee. There will be no additional charge for deliveries made by telephone within the corporate limits of any city or town in which an office of the Company is located.

5. No responsibility attached to this Company concerning messages until the same are accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company's employees, he acts for that purpose as the agent of the sender.

6. The Company will not be liable for damages or statutory penalties in the case of any message except a telegraphic message in Texas where the claim is not presented in writing to the Company within ten days after the message is filed with the Company for transmission, and in Texas the Company will not be liable for damages or statutory penalties where the claim is not presented in writing to the Company within ten days after the date of action, if any, shall have accrued, provided, however, that neither of these conditions shall apply to claims for damages or overcharges within the purview of Section 1416 of the Communications Act of 1934.

7. It is agreed that in any action by the Company to recover the cost for any message or messages the prompt and correct transmission and delivery thereof shall be presumed, subject to rebuttal by competent evidence.

8. Special terms governing the transmission of messages according to their classes as enumerated below, shall apply to messages in each of such respective classes in addition to all the foregoing terms.

9. No employee of the Company is authorized to vary the foregoing.

10-42

### DOMESTIC SERVICES

#### TELEGRAMS

A full-rate expedited service.

#### DAY LETTERS

A deferred service at lower than the standard telegram rates.

#### SERIALS

Messages sent in sections during the same day.

#### NIGHT LETTERS

Accepted up to 2 A.M. for delivery not earlier than the following morning at rates substantially lower than the standard telegrams or day letter rates.

### CLASSES OF SERVICE

### CABLE SERVICES

#### ORDINARIES

The standard service, at full rates. Code messages, consisting of 5-letter groups only, at a lower rate.

#### DEFERREDS

Plain-language messages, subject to being deferred in favor of full-rate messages.

#### NIGHT LETTERS

Overnight plain-language messages.

#### URGENTS

Messages taking precedence over all other messages except government messages.

" " Thos. Bledsoe

With the Author's Compliments

Karl Polanyi: The economy as instituted process. In: "Trade and Market in the Early Empires," The Free Press, Glencoe, Ill., 1957

"In Hammurabi's Babylonia barley was the means of payment; silver was the universal standard; in exchange, of which there was very little, both were used alongside of oil, wool, and some other staples. It becomes apparent why money uses -- like trade activities -- can reach an almost unlimited level of development, not only outside of market dominated economies, but in the very absence of markets." p. 266
